Subject: RE: Minor edits to WQS

Dear Holly:

Will keep and install in next version. It has been a struggle to get a notice in print, but I am hopeful this spring yet.

Just an FYI, there are 4 other things that annoy me in this version. My goal is to have everything in place, including ammonia criteria by 2020.

Thanks,

Pete

Hi Pete, I hope all is well and that you had a great Memorial Day weekend.

I received an email last week from a contractor who is working with EPA's Office of Water to update the Agency's repository of state and tribal WQS. They asked whether the version of North Dakota's WQS that they attached was the correct version.

It was, but I did a quick review of the document and noticed three minor editorial changes (attached) that you may wish to make.

Thanks. If you have any questions, please feel free to call me.
